

THE NETWORKING GAME: UNLOCKING OPPORTUNITIES

JOBS THAT ARE ADVERTISED

NETWORKING IS ABOUT MEETING NEW PEOPLE TO HELP YOU FIND JOBS

70-80% of jobs are not advertised - you can only find these jobs through your networks.

Knowing lots of people in your community will help you access opportunities, such as jobs, traineeships and mentoring.

IDENTIFY SOME WAYS YOU COULD NETWORK IN YOUR OWN COMMUNITY.

<p>Are you part of any clubs or groups at your school? Could you join any?</p>	<p>Do you participate in any after school activities or hobbies?</p>
<p>Is there anyone who could do some 'mentoring' with you?</p>	<p>Do you play sport?</p>
<p>How could you make use of your connections with your teachers (psst.... references...)?</p>	<p>Is there anywhere you volunteer (or could you volunteer?)</p>

Is there anyone you know through your family (eg. a family friend) who could mentor you?
