

# LEVEL UP: LEARNING ABOUT SKILLS

Skills are tools you learn and develop over time to help you do things better. Whether it's being good at maths, playing a sport, or even communicating with others, skills are what make you capable in different areas of life. They're important because they help you achieve your goals, solve problems, and open up new opportunities.

## What kind of skills might be considered valuable in today's workforce?

- |                     |                    |                 |
|---------------------|--------------------|-----------------|
| Technology          | Social Media       | Communication   |
| Attention to detail | Mind Reading       | Problem solving |
| Team work           | Financial Literacy | Administration  |
| Initiative          | Flexibility        | Dragon Taming   |
| Mind Reading        | Cultural Awareness | Leadership      |

Developing skills isn't just about making you more successful in school. It's about preparing you for the world beyond, giving you the confidence to tackle new challenges, and helping you grow as a person. So, how do you get these skills? It's a mix of learning, practice, and a bit of patience. From classroom activities to new hobbies, every experience is a chance to build your abilities.

### FILL IN THE GAPS

Complete the sentence from the words listed below.

- |                      |                          |               |
|----------------------|--------------------------|---------------|
| Quiet                | Social Media Manager     | Office worker |
| Early Years Educator | Sports Event Coordinator | Social        |

On the weekend Ollie likes taking his dirt bike out with his friends, he likes being

He always captures the day on his phone and edits videos for his socials #slay

Ollie would be well suited to a job as a

or a

# LEVEL UP: LEARNING ABOUT SKILLS

How the right skills can lead you to the right job
